GOALS FOR GOOD

Another social rewards box has been filled, this time by Yr 5 & Yr 6 at Wyburns Primary, who chose to hold a Charity Football Match and a Penalty Shoot out on Thursday 16th January and raised £103.75 for their chosen charity, Havens Hospice.

CAREERS DAY

We will be hosting a 'Careers Convention' for all Year 5 pupils on Thursday 27th February. We have parent volunteers who will be discussing their careers with the children to showcase the different jobs that people do. The day will also include mini workshops with Dr. Faris to teach them about personality traits and how each of us are individual and how our interests can lead to different careers, as well as a session to discuss interview techniques for the children to learn how to apply these skills.

CEO REFLECTIONS

This month we have learnt about Oskar Schindler, Mahatma Gandhi, and Maya Angelou.

Dr. Faris (or a member of our team) reads a book from a series of books called "Little People, Big Dreams" to teach the children about the great things that people do that demonstrates the rights of a child. It's also a great way for adults to learn more than just their story of being famous so we encourage you to take a look. Recordings of our readings can be found [here](#)

TRACKING TALL TALES

Year 1 & Year 2 at Rayleigh Primary filled their social rewards box to track a giraffe! They have purchased a bracelet which enables them to track the location of the giraffe, providing exciting updates when it moves as well as educating the children about the species; or when calves are born. Money from the purchase of the tracking bracelet went to the Somali Giraffe project that provides research into giraffes.

Did you know? Adult male giraffes are called bulls and adult female giraffes are called cows and their tongues are dark blue!

VISION DAY 2025

On Monday 3rd March we will be holding our Trust wide Vision Day. The focus this year will be around our Vision; 'Preparing learners for the world that awaits'. We will spend the day exploring our Vision and how the children can promote this during their school day and with each other.

Further details will be communicated via each of the schools shortly.

A message from Dr. Faris

I'm writing to share how delighted I am with how smoothly lessons have run across the Trust. Over the past few months, I've had the pleasure of visiting every class multiple times, and I've been so impressed by the enthusiasm of both pupils and staff. It's wonderful to see our schools buzzing with energy and focused learning.

I'm excited about the fantastic opportunities planned for the next half term. One of the highlights will be our Vision and Values Day, which will focus on careers and celebrating people who inspire us. It's such an important part of helping our pupils understand their potential and preparing them for "the world that awaits". We'll also be holding our Year 5 Careers Festival; an event I know will ignite imaginations and broaden horizons.
